Summary

AI Researcher with 13 years of industry and academic experience in Machine Learning and Computer Vision. Passionate to design and build solutions for real-world problems related to computer vision and multimodal learning applications.

Education

- 2018–2023 **PhD**, *Ecole de Technologie Supérieure (ETS)*, Montreal, Canada.
Department of Systems Engineering
[Laboratory for Imagery Vision and Artificial Intelligence \(LIVIA\)](#)
Thesis: [Deep learning-based Regression models for Dynamic Expression Recognition in videos](#)
Advisors: [Prof. Eric Granger](#) and [Prof. Patrick Cardinal](#)
- 2010–2012 **Masters of Technology**, *Indian Institute of Technology Guwahati (IITG)*, India.
Electronics and Electrical Engineering
[Image Processing and Computer Vision Laboratory](#)
Master Thesis: [A Code and Domain-Independent Traitor Tracing System](#)
Advisor: [Prof. Kannan Karthik](#)
- 2005–2009 **Bachelor of Technology**, *Jawaharlal Nehru Technological University (JNTU)*, Kakinada, India.
Specialization: Electronics and Communication Engineering
Undergraduate Thesis: Image Inpainting using Exemplar-Based Synthesis

Research Interests

I am interested in the area of Machine Learning and Computer Vision including

- Multimodal Learning
- Deep Learning
- Affective Computing
- Video Analytics

Work Experience

Mar '23 - Present **Computer Research Institute Montreal, Canada.**

Post-Doctoral Researcher

Audio-Visual Learning

- Exploring audio-visual learning for Person Verification and Emotion Recognition.

Jul '17 - Jan '18

Synechron, Bangalore, India.

Lead Engineer

Automated Document Classification

- o Developed a system for the automatic classification of financial documents.
- o Programming: Python

Iris Recognition

- o Proposed an algorithm for Iris Recognition using low-resolution Visible Images.
- o Programming: Python

Jul '15-Jun '17

Impartus Innovation, Bangalore, India.

Digital Signal Processing Engineer

Facial Analysis

- o Developed a system for automatic face recognition of professors in classrooms.
- o Developed a system for face tracking for the application of PIP in lecture videos.
- o Programming: Python

Natural Language Processing

- o Developed a system for automatic tagging of queries and similarity query matching.
- o Programming: Python

Automatic Speech Recognition

- o Developed a system of automatic speech recognition for lecture videos using kaldi.
- o Programming: Python, Shell Scripting

Feb '14-Jun '15

Samsung Research Institute, Bangalore, India.

Senior Software Engineer

NIR Imaging

- o Proposed an algorithm for the enhancement of images captured at low light scenarios.
- o Proposed an algorithm for realistic skin smoothing for Portrait Enhancement.
- o Programming : C

Jul '13-Dec '13

Supercomputer Education Research Center, Indian Institute of Science, Bangalore, India.

Project Associate with Prof. R. Venkatesh Babu

Crowd Flow Analysis in H.264 Compressed Videos

Sponsored by DRDO

- o Proposed an algorithm for crowd flow segmentation by clustering the motion vectors in H.264 compressed domain using the Expectation-Maximization (EM) algorithm.
- o Superpixel-based crowd flow segmentation is proposed using only the motion vectors in H.264 compressed videos, devoid of prior knowledge of flow segments.

Automatic Validation of Cheques

Sponsored by Tech Mahindra

- o Developed a general framework for the extraction of salient regions in the cheque for validating the presence or absence of required items based on SIFT features.

Jul'12-May'13

Electronics and Electrical Engineering, Indian Institute of Technology, Guwahati, India.

Associate Project Engineer with Prof. Roy P Paily

Feasibility Studies of Blind Navigation Assistance System

Sponsored by Deity

- o Developed a depth estimation technique from a single image based on a local depth hypothesis devoid of any user intervention and its application to assist visually impaired people.

Achievements

- March 2024 Achieved 2nd place (runner-up) in the valence-arousal challenge of 6th **ABAW** competition held in conjunction with **CVPR2024**.
- September 2018 Received **FRQNTS research scholarship** for my Ph.D. program at ETS, Canada
- September 2017 **Spot Award** to develop a system for iris recognition using visible images at Synchron
- March 2016 **Go Extra Mile** Award for developing an end-to-end system for automatic tagging of text queries at Impartus Innovation
- March 2010 Among top 0.12 of 1,05,000 students and secured 98.75 percentile in Gate 2010
Got 9th rank in 11th grade and 14th rank in 12th grade in my province.
